

TO: Congressional Subcommittee on Transit and Infrastructure

Subject: Letter of Support

We are writing to express our support for the \$3 million evaluation grant applied for by Bingham Labs last year. They have requested endorsement for their application to evaluate the feasibility of their financial models and initiate a public dialogue on the merits of this groundbreaking initiative.

We firmly believe that advancements in transportation, water, electricity, AI data centers, and carbon capture are critical for America's growth and for addressing essential human needs.

On this date, \_\_\_\_\_, 2026, we formally support Bingham Labs' grant application. Depending on the outcomes of the evaluation study, we may also consider becoming more involved in the future.
