

Public Letter of Support

We are pleased to share our support for the \$3 million evaluation grant submitted by Bingham Labs. This grant would allow their team to study the feasibility of new financial models and begin an open public conversation about the potential impact of their innovative work.

Advances in transportation, water systems, electricity, AI data centers, and carbon-capture technology are essential to America's long-term growth and to meeting basic human needs. Efforts that explore new ways to strengthen these systems deserve thoughtful evaluation and community engagement.

As of _____, 2026, we formally endorse Bingham Labs' grant application. Once the evaluation is complete, we may consider additional involvement depending on the study's findings.
